Food Fright

Doctors in Britain are worried because British teenagers eat a lot of crisps, sweets and fat food. Most teenagers don't have enough fruit or vegetables and more than one million British schoolchildren are overweight.

Some teenagers say that they don't have time to eat good food, but kids who have a poor diet often have health problems when they are older. Fast food is typical of American's diet, it was born there. American fast food is now part of life all over the world. McDonald's, Pizza Hut, Burger King have restaurants in many countries on all the continents.

The only good thing about fast food is its low price. In fact, a steady diet of burgers, fries and cola doesn't fill your body with vitamins and minerals you need to stay healthy. Fast food is rich in calories but it doesn't have many important nutrients (nutritельные вещества).

Now doctors give young people books and games about food diet. Having healthy, well-balanced diet can help you feel better and live longer.
